NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of Vantage Health Plan of Arkansas, Inc. (the “Company”) are presented on the basis of accounting practices prescribed or permitted by the State of Arkansas Insurance Department (“AID”).

The AID recognizes only statutory accounting practices prescribed or permitted by the State of Arkansas for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Arkansas Insurance Law. The National Association of Insurance Commissioners’ (NAIC) Accounting Practices and Procedures manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Arkansas.

A reconciliation of the Company’s capital and surplus between practices prescribed and permitted by the State of Arkansas and NAIC SAP is shown below. The Company’s net income for the nine months ended September 30, 2017 and the year ended December 31, 2016 would not have been affected by NAIC SAP.

B. Use of Estimates – Not applicable

C. Accounting Policies – Premiums collected in advance will be deferred and recorded as premiums received in advance. Third-party selling expenses are included in general administrative expenses.

The application of SSAP No. 101 requires the Company to evaluate the recoverability of deferred tax assets and to establish a valuation allowance if necessary to reduce the deferred tax asset to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance, the Company considers many factors including: (1) the nature of the deferred tax assets and liabilities; (2) whether they are ordinary or capital; (3) the timing of their reversal; (4) taxable income in prior carry back years as well as projected taxable earnings exclusive of reversing temporary differences and carry forwards; (5) the length of time that carryovers can be utilized; (6) unique tax rules that would impact the utilization of the deferred tax assets; and (7) any tax planning strategies that the Company would employ to avoid a tax benefit from expiring unused although the realization is not assured, management believes it is more likely than not that the deferred tax assets, net of valuation allowances, will be realized.

In addition, the Company uses the following accounting policies:

1. Short-term investments with a maturity of three months or less, and certificates of deposit with maturity dates in one year or less from the acquisition date are reported as cash. Money market funds are reported as short-term investments.

These steps were completed in October 2017. No adverse consequence, financial or otherwise, should result from the license surrender and corporate dissolution.
