1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of WellCare Health Insurance Company of Kentucky, Inc. (the "Company"), domiciled in the state of Kentucky, are presented on the basis of accounting practices prescribed or permitted by the Kentucky Department of Insurance (the "Department").

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Kentucky for determining and reporting the financial condition, results of operations, and cash flows of an insurance company for determining its solvency under Kentucky insurance law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the state of Kentucky.

A reconciliation of the Company's net income (loss) and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Kentucky is shown below:

B. Uses of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in accordance with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The primary use of estimates are related to the Company's reserve for claims unpaid. Actual results could differ significantly from those estimates.

C Accounting Policy

Net Premium Income

The Company earns net premium income through participation in Medicaid, Medicaid-related and Medicare programs, including both the Medicare Advantage ("MA") and the Medicare Part D prescription drug program ("PDP"). Medicaid contracts with state agencies generally are multi-year contracts subject to annual renewal provisions, while Medicare contracts with the Center for Medicare and Medicaid Services ("CMS") renew annually. Medicare and Medicaid contracts establish fixed, monthly premium rates per member, which are generally determined at the beginning of each new contract renewal period; however, premiums may be adjusted by CMS and state agencies throughout the terms of the contracts in certain cases. Premium rate changes are recognized in the period the change becomes effective, when the effect of the change in the rate is reasonably estimable, and collection is assured.

Medicare Risk-Adjusted Premiums

CMS provides risk-adjusted payments for MA Plans and PDPs based on the demographics and health severity of enrollees. The risk-adjusted premiums received are based on claims and encounter data submitted to CMS within prescribed deadlines. Estimates for risk-adjusted premiums are developed utilizing historical experience, or other data, and predictive models as sufficient member risk score data becomes available over the course of each CMS plan year. Periodic changes to risk-adjusted premiums are recognized as net premium income when the amounts are determinable and collection is reasonably assured, which is possible as additional diagnosis code information is reported to CMS, when the ultimate adjustment settlements are received from CMS, or we receive notification of such settlement amounts. CMS adjusts premiums on two separate occasions on a retrospective basis.

The first retrospective adjustment for a given plan year generally occurs during the third quarter of that year. This initial settlement represents the update of risk scores for the current plan year based on the severity of claims incurred in the prior plan year. CMS then issues a final retrospective risk adjusted premium settlement for that plan year in the following year. Historically, there have not been significant differences between estimates and amounts ultimately received. The data provided to CMS to determine members' risk scores is subject to audit by CMS even after the annual settlements occur. An audit may result in the refund of premiums to CMS. While experience to date has not resulted in a material refund, future refunds could materially reduce premium net premium income in the year in which CMS determines a refund is required and could be material to our financial statements.

Risk Corridor Provisions
MA and PDP premiums are subject to risk sharing through the CMS Medicare Part D risk corridor provisions. The risk corridor calculation compares actual experience to the target amount of prescription drug costs, limited to costs under the standard coverage as defined by CMS, less rebates included in the submitted plan year bid. The Company receives additional premium from CMS if actual experience is more than 5% above the target amount. The Company refunds premiums to CMS if actual experience is more than 5% below the target amount. Based on the risk corridor provision and PDP activity-to-date, an estimated risk-sharing receivable or payable is recorded as an adjustment to net premium income. After the close of the annual plan year, CMS performs the risk corridor calculation and any differences are settled between CMS and the Company. Historically, there have not been material differences between recorded estimates and the subsequent CMS settlement amounts.

Medicare Part D Settlements
The Company receives certain Part D prospective subsidy payments from CMS for MA and PDP members as a fixed monthly per member amount, based on the estimated costs of providing prescription drug benefits over the plan year, as reflected in bids. Approximately nine to ten months subsequent to the end of the plan year, or later in the case of the coverage gap discount subsidy, a settlement payment is made between CMS and the Company based on the difference between the prospective payments and actual claims experience. The subsidy components under Part D are described below:

Low-Income Cost Sharing Subsidy ("LICS")-For qualifying low-income subsidy members, CMS reimburses the Company for all or a portion of the low income subsidy member's deductible, coinsurance and co-payment amounts above the out-of-pocket threshold.

Catastrophic Reinsurance Subsidy-CMS reimburses the Company for 80% of the drug costs after a member reaches his or her out-of-pocket catastrophic threshold through a catastrophic reinsurance subsidy.

Coverage Gap Discount Subsidy ("CGDS")-CMS provides monthly prospective payments for pharmaceutical manufacturer discounts made available to members.

Catastrophic reinsurance subsidies and LICS subsidies represent cost reimbursements under the Medicare Part D program. The Company is fully reimbursed by CMS for costs incurred for these contract elements and, accordingly, there is no insurance risk to the Company. Therefore, amounts received for these subsidies are not considered net premium income, and are reported, net of the subsidy benefits paid, as deposits. Costs incurred over deposits received are recorded as a receivable for amounts paid for uninsured plans and deposits received in excess of costs incurred are recorded as liability for amounts held under uninsured plans. Historically, the settlement payments between the Company and CMS have not been materially different from our estimates.

CGDS advance payments are recorded as a receivable for amounts paid for uninsured plans. Receivables are set up for manufacturer-invoiced amounts. Manufacturer payments reduce the receivable as payments are received. After the end of the contract year, during the Medicare Part D Payment reconciliation process for the CGDS, CMS will perform a cost-based reconciliation to ensure the Medicare Part D sponsor is paid for gap discounts advanced at the point of sale, based on accepted prescription drug event data.

Medicare Minimum Loss Ratio ("MLR")
Beginning in 2014, the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010 (collectively, the "ACA"), requires the establishment of a minimum medical loss ratio ("MLR") for MA and PDP plans, requiring them to spend not less than 85% of premiums on medical benefits. The rules implementing the minimum MLR impose financial and other penalties for failing to achieve the minimum MLR, including requirements to refund to CMS shortfalls in amounts spent on medical benefits and termination of a plan's MA contract for prolonged failure to achieve the minimum MLR. MLR is determined by adding a plan's spending for clinical services, prescription drugs and other direct patient benefits, plus its total spending on quality improvement activities and dividing the total by earned premiums (after subtracting specific identified taxes and other fees). No refund was due or payable to CMS for this provision in 2018 or 2017.

Medicaid Minimum Loss Ratio
The Company's Medicaid contract with the Kentucky Department of Medicaid Services ("KDMS") for ACA expansion members includes a provision whereby, for each of the separate periods a) Calendar Year 2014, b) Calendar Year 2015, c) January 1, 2016 - June 30, 2016 the Company shares the risk with KDMS for any minimum loss ratio outside the Risk Corridor of 82%-92% of the premiums received related to allowable medical benefits expense, as defined in the contract ("Risk Corridor provision"). To the extent that the Company expends less than the minimum or more than the maximum percentage of the premiums, offset by allowable taxes and assessments, on allowable medical benefits expense, including allowable quality improvement expenses, in any contract year as required by the Risk Corridor provision, the Company is required to share 80% of the difference between the minimum (or maximum) and the actual medical benefits expense with KDMS. The Company's Medicaid contract with KDMS for Non ACA expansion members includes

a provision whereby, for the State Fiscal year 2016 (7/1/15 through 6/30/16), the Company shares the risk with KDMS for any minimum loss ratio less than 85% of the premiums received. To the extent that the Company expends less than the minimum percentage of the premiums, offset by allowable taxes and assessments, on allowable medical benefits expense, including allowable quality improvement expenses, in this period as required by the Minimum MLR provision, the Company is required to refund 80% of the difference between the minimum and our actual allowable medical benefits expense with KDMS. Beginning July 1, 2016, the Company is required to expend 90% of the premiums for ACA and Non-ACA populations combined. To the extent that the Company expends less than the minimum percentage of the premiums, offset by allowable taxes and assessments, on allowable medical benefits expense, including allowable quality improvement expenses, in any State Fiscal year as required by the Minimum MLR provision, the Company is required to share all or some portion of the difference between the minimum and our actual allowable medical benefits expense with KDMS. If the allowable medical benefits expense ratio to premiums is less than 90% but greater than 86%, the company is required to share 75% of the difference with KDMS. If the allowable medical benefits expense ratio to premiums is less than or equal to 86% then the company is required to refund 100% of the difference between 86% of the premiums and actual medical benefits expense and 75% of the difference between 86% to 90% of the premiums. The Company performs a calculation of the Risk Corridor provision each reporting period and accrues an estimate for amounts to be refunded or collected based on its current estimates of ultimate loss experience for the contract period. At December 31, 2018, a premium refund of $1,588,083 was accrued. At December 31, 2017, no premium refund was due or accrued.

10. *Premium Deficiency* – the Company's contracts are evaluated to determine if it is probable that a loss will be incurred. A premium deficiency reserve ("PDR") is established when it is probable that expected claims payments or incurred costs, claims adjustment expenses, and general administration expenses will exceed future premiums and reinsurance recoveries for the remainder of a contract period. For purposes of determining a PDR, investment income is excluded and contracts are grouped in a manner consistent with the method of acquiring, servicing and measuring the profitability of such contracts. A PDR is recorded as an aggregate health policy reserves and as an increase in reserves for life and accident and health contracts. Once established, a PDR is reduced over the contract period as an offset to actual losses. The PDR estimates are re-evaluated each reporting period and, if estimated future losses differ from those in the current PDR estimate, the liability is adjusted through increase in reserves for life and accident and health contracts, as necessary. The Company had no PDR liability recorded within its liabilities as of December 31, 2018 and 2017.

11. *Unpaid Losses and Loss Adjustment Expenses* – The Company recognizes the cost of medical benefits in the period in which services are provided, including an estimate of the cost of medical benefits incurred but not reported ("IBNR"). Medical benefits incurred and claims adjustment expenses include claim payments, capitation payments, pharmacy costs net of rebates, allocations of certain centralized expenses, legal and administrative costs to settle claims, and various other costs incurred to provide health insurance coverage to members.

The Company also records direct medical expenses for estimated referral claims related to health care providers under contract with the Company who are financially troubled or insolvent and who may not be able to honor their obligations for the costs of medical services provided by others. In these instances, the Company may be required to honor these obligations for legal or business reasons. Based on the current assessment of providers under contract with the Company, such losses have not been and are not expected to be significant. The Company records direct medical expense for estimates of provider settlements due to clarification of contract terms, out-of-network reimbursement, claims payment differences and amounts due to contracted providers under risk-sharing arrangements.

Claims unpaid represents amounts for claims fully adjudicated but not yet paid and estimates for IBNR. The Company's estimate of IBNR is the most significant estimate included in the financial statements. The Company determines the best estimate of the base liability for IBNR utilizing consistent standard actuarial methodologies based upon key assumptions which vary by business segment. The assumptions include current payment experience, trend factors, and completion factors. Trend factors in standard actuarial methodologies include contractual requirements, historic utilization trends, the interval between the date services are rendered and the date claims are paid, denied claims activity, disputed claims activity, benefit changes, expected health care cost inflation, seasonality patterns, maturity of lines of business, changes in membership and other factors.

After determining an estimate of the base liability for IBNR, the Company makes an additional estimate, also using standard actuarial techniques, to account for adverse conditions that may cause actual claims to be higher than the estimated base reserve. This additional liability is referred to as the provision for moderately adverse conditions. The estimate of the provision for moderately adverse conditions captures the potential adverse development from factors such as:

- entry into new geographical markets;

- provision of services to new populations such as the aged, blind and disabled;
- variations in utilization of benefits and increasing medical costs, including higher drug costs;
- changes in provider reimbursement arrangements;
- variations in claims processing speed and patterns, claims payment and the severity of claims; and
- health epidemics or outbreaks of disease such as the flu or enterovirus.

The Company evaluates estimates of medical benefits payable claims unpaid as it obtains more complete claims information and medical expense trend data over time. The Company records differences between actual experience and estimates used to establish the liability, which is referred to as favorable and unfavorable prior period developments, as increases or decreases to medical benefits hospital and medical expense in the period the Company identifies the differences.

13. *Pharmacy Rebates* - Pharmacy rebates are recorded on an accrual basis and are estimated based on invoices that have been prepared using actual prescriptions filled, historical utilization of specific pharmaceuticals and contract terms and records such amounts as a reduction of total hospital and medical cost.

D. Reconciliation of Federal Income Tax Rate to Actual Effective Rate - The sum of the income tax incurred is different from the result obtained by applying the federal statutory rate of 21% and 35% to pretax net income for 2018 and 2017, respectively, due to the enactment of the Tax Cut and Jobs Act. For both 2018 and 2017, the deferred tax asset/liability was calculated by applying the federal statutory rate of 21%. The significant items causing the difference are as follows:

		2018	% of Pre-tax Income

F. Consolidated Federal Income Tax Return

1. The Company and its affiliated entities (as listed on Schedule Y, Part 1) are included in the consolidated federal income tax return of WellCare Health Plans, Inc. ("WellCare").

2. Federal Income Tax Allocation - The Company is included in the consolidated federal income tax return of WellCare and its includable subsidiaries. Estimated tax payments are made quarterly, at which time intercompany tax settlements are made. In the subsequent year, additional settlements are made on the unextended due date of the return and at the time that the return is filed. The method of allocation among affiliates of the Company is subject to a written agreement approved by the Board of Directors and based upon separate tax return calculation with current credit for net losses to the extent the losses provide a benefit in the consolidated tax return.

G. The Company has no federal or foreign income tax loss contingencies as of December 31, 2018. The Company is not expecting any increase in its income tax loss contingency within the next 12 months.

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A, B and C. Relationship/Transactions and Amounts

Comprehensive Health Management Inc. ("CHMI")
The Company has an affiliated management agreement with CHMI to provide certain management, administrative services and claims processing services, utilization review, payroll services and the majority of the administrative functions of the Company, excluding certain sales and marketing functions and other professional consulting expenses. Additionally, CHMI is responsible for maintaining the claims related data processing equipment and software.

In 2018, the Company's agreement with CHMI was amended. The indirect cost charge for Medicare gross premium earned was revised from 12.0% in 2017 to 6.8% in 2018; the indirect cost charge for Medicaid gross premium earned was revised from 6.5% in 2017 to 6.8% in 2018; and the indirect cost charge for Medicare Part D gross premium earned was revised from 7.0% in 2017 to 9.2% in 2018 with all changes being retroactive to January 1, 2018. The agreement was approved by the Department on August 27, 2018.

The Company will also reimburse CHMI for expenses it pays which are directly allocable to the Company. Additionally, the agreement includes a true-up mechanism where the management fee charged is compared to the actual cost of services provided and any difference is settled between CHMI and the Company. The true-up will occur on an annual basis for the prior year's activity. Management believes rates charged by CHMI to be an approximation of current market rates; however, future adjustments to this rate may be necessary as changes in regulations, scopes of services and market dynamics occur.

During 2018, the Company's 2017 management fee true-up was calculated and booked. The true-up resulted in a $2,483,666 decrease in management fees charged to the Company based on actual cost of services provided during 2017. During 2017, the Company's 2016 true-up was calculated and booked. The true-up resulted in a $18,276,878 decrease in management fees charged to the Company based on actual cost of services provided during 2016.

During 2018 and 2017, the Company incurred $235,048,950 and $199,693,594 respectively, for services under the management agreement with CHMI. The total amounts due from CHMI were $3,267,228 and $4,708,526 at December 31, 2018 and 2017. Amounts due to or from CHMI are normally settled within 30 days.

Affiliated Agreements
The Company assumes reinsurance coverage from its affiliate, WellCare of Texas, Inc., to cover out-of-network claims on Medicare Advantage point-of-service plans offered in the State of Arizona.

The Company has an affiliated joint enterprise agreement with WellCare Prescription Insurance, Inc. The two Parties to this agreement provide Medicare prescription drug plan services to Medicare Part D beneficiaries in their respective service areas.

Amounts due to/from affiliates resulting from intercompany arrangements are non-interest bearing and are generally settled within 30 days.

Dividends
The Company paid a $50,000,000 extraordinary cash dividend to the Parent Company, The WellCare Management Group, Inc. ("WCMG") on September 18, 2018 and a $25,000,000 extraordinary cash dividend to WCMG on December 13, 2018. The Company paid a $25,000,000 ordinary cash dividend on July 3, 2017 and a $25,000,000 extraordinary cash dividend to WCMG on December 19, 2017.

D. Intercompany Balances - At December 31, 2018, the Company reported a balance of $3,267,228 receivable from parent, subsidiaries and affiliates and a $34,794,718 payable to parent, subsidiaries and affiliates.

B. Assets Measured on a Fair Value on a Nonrecurring Basis:

The Company's financial statements include certain financial instruments carried at amounts which approximate fair value, such as, cash, cash equivalents, short-term investments and receivables. The carrying amount approximates fair value because of the short-term nature of these items. The Company has no assets or liabilities measured or reported at fair value as of December 31, 2018 and 2017.

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1—Quoted (unadjusted) prices for identical assets or liabilities in active markets: Investments included in Level 1 consist of cash, money market funds, and U.S. government securities. The carrying amounts of money market funds and cash approximate fair value because of the short-term nature of these instruments. Fair values of the other investments included in Level 1 are based on unadjusted quoted market prices for identical securities in active markets.

Level 2—Inputs other than quoted prices in active markets: Investments in Level 2 consist of certain certificates of deposit, commercial paper, corporate debt, asset-backed and other municipal securities for which fair market valuations are based on quoted prices for identical securities in markets that are not active, quoted prices for similar securities in active markets, broker or dealer quotations, or alternative pricing sources or for which all significant inputs are observable, either directly or indirectly, including interest rates and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks, and default rates.

In addition to using market data, the Company makes assumptions when valuing assets and liabilities, including assumptions about risks inherent in the inputs to the valuation technique. When there is not an observable market price for an identical or similar asset or liability, management uses an income approach reflecting their best assumptions regarding expected cash flows, discounted using a commensurate risk-adjusted discount rate. The fair value of the future payments related to investigation resolution is estimated using a discounted cash flow analysis and these amounts are recorded at fair value in the financial statements.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data: Not applicable

Medicare and Medicaid Contracts

The Company offers stand-alone prescription drug coverage under the Medicare Part D program ("PDP") to beneficiaries pursuant to a contract with the Centers for Medicare & Medicaid Services ("CMS"). Through an affiliated joint enterprise agreement with WellCare Prescription Insurance, Inc., both companies agreed to provide stand-alone PDP plans to Medicare Part D beneficiaries in their respective service areas, which for the Company includes Alabama, Arkansas, Colorado, Connecticut, Minnesota, Montana and Rhode Island. The Company's PDP contract with CMS is renewable for successive one-year terms unless CMS notifies the Company of its decision not to renew by May 1 of the current contract year, or the Company notifies CMS of a decision not to renew by the first Monday in June of the contract year. The Company's current PDP contract expires on December 31, 2019.

The Company expects that its Medicare contract, which expires on December 31, 2019, will be renewed. The Company's operating results could be significantly constrained in the event that the compensation provided under its Medicare contract is adjusted or if the contract is not renewed.

The Company provides managed care services to Medicaid recipients through its contract with KDMS to serve the Commonwealth's Medicaid program. Under this program, we coordinate medical, behavioral and dental health care for eligible beneficiaries in Kentucky's Temporary Assistance for Needy Families and Child Health Plus programs. The Company's Medicaid contract expires on June 30, 2019, and it includes one additional one-year renewal options upon the mutual agreement of the parties which are expected to be exercised. The Company's operating results could be significantly constrained in the event that the compensation provided under its Medicaid contract is adjusted or if the contract is not renewed.

ACA Annual Fee

The Company is subject to the annual industry fee under section 9010 of ACA. The industry fee is being levied on certain health insurers that provide insurance in the assessment year, and is allocated to health insurers based on each health insurer's share of net premiums for all U.S health insurers in the year preceding the assessment. In December 2015, President Obama signed the Consolidated Appropriations Act, 2016 which, among other provisions, included a one-year moratorium on the ACA industry fee for 2017. While the ACA industry fee was assessed in 2018, the continuing resolution approved in January 2018 provides for an additional one-year moratorium for 2019 for the ACA industry fee.

The liability and expense are recognized once the Company provides health insurance for any U.S. health risk in the assessment year. The Company paid and expensed $54,785,186 and $0 in 2018 and 2017, respectively. Additionally, the estimate for the following year's fee is accrued monthly and separately segregated within surplus as an aggregate write-in in accordance with Statutory accounting guidance.

The Company has an agreement with its state Medicaid customer in Kentucky which provides for them to reimburse the Company for the portion of the ACA industry fee attributable to the Medicaid program in the state, including its non-deductibility for income tax purposes. The execution of the agreement enabled the Company to recognize approximately $82,921,205 and $0 reimbursement as premium revenue for the years ending December 31, 2018 and 2017, respectively.

		Current Year		Prior Year

G.	Authorized Control Level (Five-Year Historical Line 15)	$ 95,087,193		
H.	Would reporting the ACA assessment as of December 31, 2018 have triggered an RBC action level?	No		

There were no additional events occurring subsequent to December 31, 2018 requiring disclosure. Subsequent events have been considered through February 22, 2019 for the Statutory statement issued on February 22, 2019.

23. Reinsurance

A. Ceded Reinsurance Report

Section 1 – General interrogatories

1. Are any of the reinsurers, listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the Company or by an representative, officer, trustee, or director of the Company?

   Yes ( ) No (X) If yes, give full details.

2. Have any policies issued by the company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) which is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or an insured or any other person not primarily engaged in the insurance business?

   Yes ( ) No (X) If yes, give full details.

Section 2 – Ceded Reinsurance Report – Part A

1. Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits?

   Yes ( ) No (X) If yes, give full details.

a. If yes, what is the estimated amount of the aggregate reduction in surplus of a unilateral cancellation by the reinsurer as of the date of this statement, for those agreements in which cancellation results in a net obligation of the company to the reinsurer, and for which such obligation is not presently accrued? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate. N/A.
b. What is the total amount of reinsurance credit taken, whether as an asset or as a reduction of liability, for these agreements in this statement? $0

2. Does the Company have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?

   Yes ( ) No (X) If yes, give full details.

Section 3 – Ceded Reinsurance Report – Part B

1. What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above), of termination of all reinsurance agreements, by either party, as of the date of this statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate. N/A

2. Have any new agreements been executed or existing agreement amended, since January 1 of the year of this statement, to include policies or contracts which were in-force or which had existing reserves established by the Company as of the effective date of the agreement?

   Yes ( ) No (X) If yes, what is the amount of reinsurance credits, whether an asset or reduction of liability, taken for such agreements or amendments? N/A

B. Uncollectible Reinsurance – None
C. Commutation of Ceded Reinsurance – None
D. Certified Reinsurer Rating Downgraded or Status Subject to Revocation – None

24. Retrospectively Rated Contracts

A. The Company estimates accrued retrospective premium adjustments for its Medicaid and Medicare business through a mathematical approach using an algorithm based upon settlement procedures defined by contracts with KDMS and CMS.
B. The Company records accrued retrospective premium as an adjustment to earned premiums.
C. The amount of net premiums written by the Company at December 31, 2018 that are subject to retrospective rating features was $3,028,969,132 or 100% of the total net premiums written. No other net premiums written by the Company are subject to retrospective rating features.
D. – Not applicable
E. Risk-Sharing Provisions of the Affordable Care Act (ACA) – Not applicable

25. Change in Incurred Claims and Claim Adjustment Expenses

A. The estimated cost of claims expense attributable to insured events of the prior year decreased by $61,581,226 during 2018. This is approximately 19.5% of unpaid claims expenses of $315,938,392 as of December 31, 2017. Excluding the prior period development related to the release of the provision for moderately adverse conditions, medical benefits expense for the period ending December 31, 2018 was affected by approximately $36,286,377 of net favorable development related to prior years. Such amounts are net of the development relating to refunds due to government customers with minimum loss ratio provisions.
