State of Arkansas
State Insurance
Department

REPORT FOR PERIOD

JANUARY 1, 1953 to DECEMBER 31, 1953

INCLUSIVE

LITTLE ROCK, ARKANSAS

1953

Page 2

Left Blank Intentionally

August 2, 1954

Honorable Francis Cherry
Governor of Arkansas
Little Rock, Arkansas
Dear Governor:

I have the honor to submit the Seventy-third Annual report of the State Insurance Department, as required by law. In addition to the proceedings of the Department for the preceding year, the report includes a condensed financial statement and summary of business transacted in Arkansas of all insurance companies, foreign and domestic, which were authorized to transact business in the State during 1953.

COLLECTIONS

Taxes and fees collected during the period covered by this report amounted to $2,370,939.19. This was paid into the State Treasury as required by law and allocated as follows:

General Revenue Fund	$1,996,463.60
Firemen's Relief and Pension Fund	275,340.75
Workmen's Compensation	99,134.84

CUSTODIAN OF SECURITIES

This department is joint control custodian of approximately $13,171,562.07 approved securities earmarked as reserves for outstanding life insurance policies of Domestic Life Insurance Companies. In addition, the department is sole custodian of approximately $3,388,625.00 in approved securities deposited by various companies for the protection of claimants in this state.

POLICY FORMS AND RATING DIVISION

All life, accident, health and accident, and hospitalization forms and rates are examined by the Department Attorney and must receive approval before being offered to the public in this State. On and after January 1, 1955, the Uniform Health and Accident Law, Act 394 of 1951 becomes fully operative. All companies have been notified to amend their filings by September 1, 1954, so that all policies and forms issued after January 1, 1955, conform to all provisions of this Act.

Fire insurance rates were reduced $6,443,022 in 1953. The adjustment, made in accordance with latest statistics and sound actuarial practices, brings the current rate level to the lowest point in over 20 years. A scientific test of the rate structure reflects that the future underwriting profit of all authorized stock fire insurance companies will be limited to the statutory limit of 5% on their Arkansas business. Dwelling rates in cities with the best fire protection have been reduced 68.5% since 1934. Class 10 dwelling rates have been reduced 40.6% and farm dwelling rates are 33.2% lower than in 1934.

Business and industry should be pleased with our administration of the Workmen's Compensation insurance rates. A recent study of the Legislative Council developed the fact that compensation rates in Arkansas compare favorably with those in 12 neighboring states in the Southwest, whereas the benefits under our law are among the most liberal in the nation. The latest reduction of 6.2% become effective June 1, 1954. The current rate level is now 52.6% of the average promulgated in 1940, the first year of the Workmen's Compensation Act.

CONCLUSION

One word of caution to our citizens buying insurance . . . be sure the company is admitted to do business in Arkansas. Non-admitted companies should not be considered. If they are worthy of consideration, they can be admitted and subject themselves to the jurisdiction of our courts. If these companies do not care to do this, either their financial structure will not bear inspection or they do not wish to subject themselves to the legal requirements to which other legitimate insurance companies subject themselves.

We wish to thank you for your full cooperation and would welcome any comments and suggestions relative to the operation and supervision of the Department.

Respectfully submitted,

HARVEY G. COMBS
Insurance Commissioner

FIRE MARSHAL DIVISION

During 1953, this office inaugurated a Fire Reporting System. Special forms were placed in the hands of all sheriffs, fire chiefs, town marshals, and deputy fire marshals. This system enabled the office of the State Fire Marshal to keep a more accurate record of fires that occurred within our State.

The Junior Fire Marshal's Program which was adopted in 1949, continued to be a contributing factor in preventing fires in our schools. During the year 1953, there were fifteen school fires, none of which occurred in a school that had an active Junior Fire Marshal's Program. Badges were obtained and presented to those children participating in the program.

Five town inspections were participated in by the State Fire Marshal's office. Follow-up recommendations were made, and, in most instances, complete cooperation was the result. Public buildings were inspected periodically throughout the year by the Deputy Fire Marshals over the State. Forward progress was made in every county to encourage local towns and municipalities to adopt fire-zone restrictions and regulations.

An effort was made to expand the inspection capacity of the Fire Marshal's office during the year 1953. The fire chiefs over the state were constantly reminded of their duty as imposed by an Arkansas Statute that officially deputized them as Deputy State Fire Marshals. A meeting was held with the inspectors of the Labor Department in April in an effort to officially deputize fifteen additional inspectors. A complete program was outlined and adopted by the group. All indications are most favorable as co-operation between Labor Department and the Fire Marshal's Department has already saved the State of Arkansas many dollars in fire loss.

Investigations of suspicious fires continued to require many hours of restless efforts by the Fire Marshal's Department. During the year of 1953, there were reported ninety-one suspicious fires. Investigations were made and a total of sixteen arson indictments and two first degree murder indictments were filed by the proper authorities.

The Fire Marshal's Division participated in several phases of training during the year of 1953. The Fire Department Instructor's Conference which was held in Memphis, Tennessee, was attended by the Fire Marshal and his Chief Deputy. The Arkansas State Fire Training School was attended by the State Fire Marshal here in Little Rock. Coordinated efforts were extended in cooperation with the State Civil Defense Program in its organization. District Fire Training Schools held over the entire State of Arkansas were participated in by the Office of State Fire Marshal. The Chief Deputy State Fire Marshal attended the Arson School held annually at Purdue University.

The office of State Fire Marshal promulgated many regulations in an effort to adopt an Arkansas Fire Prevention Code. The Arkansas Fire Prevention Code (part one through five) was adopted and distributed throughout the State of Arkansas. National Codes were adopted as a minimum standard in the construction of new buildings. Among the National Codes were the following: National Building Code, National Building Exits Code, National Elevator and Dumbwaiter Code, and the National Fire Prevention Code edited by the National Board of Fire Underwriters. The old question of what to do about the handling of fireworks was dealt with during the past year. Regulations, which are part six of the Arkansas Fire Prevention Code, were promulgated in an effort to control the fire hazards caused by the use of fireworks. An official Hospital and Nursing Home Accreditation Certification Program was officially adopted by a coordinated effort between the State Health Department and the Fire Marshal's office.

All of the various phases of the Fire Marshal's activities were still not enough to combat the ever present danger created by carelessness. Of the hundereds of fires during 1953, which amounted to seven million dollars in property losses, nearly eighty-five per cent were caused by carelessness. Loss of life continued to increase by the fact that fire was the cause of death of 168 persons. The terribly significant feature of this loss of life is that 76 of the 168 persons were our children, a figure higher than loss of life to children by childhood diseases.

An expanded program is being presented to the Legislative Council in the hope additional funds and personnel may be added to this important phase of our State Government.

REPORT OF LICENSE DIVISION—1953

Non-Resident Brokers by States
