In January of each year, the Division mails a premium tax package to 2,349 licensed insurers. The package contains all premium tax forms necessary for the filing of annual and quarterly tax payments. Annual statements along with the tax payments are due by March 1 of each year. Quarterly tax payments are due by May 15, August 14, and November 14 of each year. The total taxes and fees collected in 1995 amounted to approximately \$98,556,305.91 and were disbursed as follows:

- \$62,246,684.12 in premium taxes paid by all licensed insurers and deposited into the General Revenue Fund (AGA).
- \$8,129,054.20 collected from licensed property and casualty insurers for the Firemen's Pension Fund (SLM) and \$9,476,642.77 collected for the Police Officer's Pension Fund (SLP). Property and Casualty insurers writing fire or auto insurance must complete forms for firemen's or police pension. The forms are audited while working the annual statements. The proper tax rate is then applied to the allocated Firemen's or Police Pension Fund. The data from the forms are keyed into the Department of Computer Services computer system for determining the proper premiums per location (372 insurers submit information on fire pension and 284 insurers submit information for police pension). After the reports are verified, distribution is made according to the total taxes collected for the firemen and police pension fund for the purpose of firemen and police officers' retirement benefits.
- \$1,628,658.33 Workers Compensation Commission Second Injury Fund (TSW), \$3,100,306.84 Workers compensation Commission Fund (TJW) and \$4,348,550.32 Workers Compensation Commission Death and Permanent Total Disability Fund (TDP). This Division is responsible for collecting the Workers' Compensation Commission Taxes. These taxes must be submitted by March 1 of each year. The tax is collected on written manual premiums rates. These rates can range from 0% up to 3% depending on a formula determined by or approved by the Workers' Compensation Commission. The

division deposits all three funds directly and the Workers Compensation Commission has administrative authority.

- \$5,052,879.75 deposited into Constitutional and Fiscal Offices (HSC). Collection based on fees and for the operation of fund.
- \$4,573,529.58 Fire Protection Revolving Fund (ARH-01) collected from licensed property and casualty insurers on first party premiums. The purpose is to fund the rural fire departments in order to purchase equipment, construct buildings and educate firemen. The Department of Finance and Administration disburses the funds after this division makes the deposit.

The 2,349 annual statements are audited by the Accounting Division to verify premiums written and taxes and fees collected. If any discrepancies appear in the statement data compared to taxes paid, a letter is prepared requesting clarification or correction.

The Division maintains oversight of all budgetary matters of the Insurance Department, preparing fiscal year budgets, biennium budgets, payment of all invoices, purchasing of all furniture, equipment, and necessary supplies.

All fees, taxes, and other funds payable to the Arkansas Insurance Department must be accounted for by this Division. All checks and payments are posted in ledgers for audit verification before deposited into the State Treasury.

The Consumer Services Division continued in 1995 to provide important and worthwhile services to the insurance buying public of Arkansas. This Division is charged with the responsibility of assisting citizens, who might be experiencing difficulty, in resolving insurance problems. The Division also attempts to educate consumers as to the nature of insurance, the importance of those products, and how to wisely shop for insurance.

The Consumer Services Division had a staffing of ten employees during 1995.

The Division received 2,673 written complaints; of the total, 1,404 complaints concerned life and health insurance; and 1,269 complaints related to automobile and homeowners insurance. The Division assisted 385 walk-in citizens during the year 1995. The Division closed 2,582 written complaint files and was instrumental in recovering \$3,473,208 for consumers of the State of Arkansas. In addition, the Division also received 17,031 telephone inquiries during the year 1995.

1995 Consumer Complaints Processed

The assigned tasks of the insurance investigators require them to receive and review insurance complaints in the form of written complaints, telephone calls, or personal visits, to contact the involved companies and consumers as to required information and action, to use their knowledge and expertise in reviewing files for trends of possible adverse actions by insurance companies and related entities, with the ability to present information to the public in a clear and accurate manner, in both written and verbal communications.

The Division continues to educate consumers through speaking engagements and outreach programs throughout the State. The Department participates in all workshops presented by the Governor's Dislocated Workers Task Force, which provides information and assistance to workers facing job loss.

DATA PROCESSING DIVISION

Phone: (501) 686-2865

Data Center Manager Alan D. McKenzie
Applications/System Analyst Britt P. Simmons
Systems Coordination Analyst Donald D. Cordes

The Data Processing Division was created in June of 1986 to implement a plan to automate the Insurance Department. In August of 1989, the Department took delivery of a Data General KV15000 Mod 8 minicomputer.

The Division supports more than 135 individual users on the system's 100 terminals. All data processing services are available to the Department 24 hours a day, seven days a week. In addition to providing the Department customized data processing services, the Division provides an IBM compatible communication facility. Through this network, the Arkansas Insurance Commissioner is able to access the financial reporting and regulatory resources of the National Association of Insurance Commissioners (NAIC) as well as the counsel of Insurance Commissioners of the 49 other states, the District of Columbia, Guam, Puerto Rico and American Samoa.

The Data Processing Division maintains, on computer, master files of all companies currently authorized to participate in insurance related activities in the State, all licensed agents, all licensed agencies, Arkansas insurance statutes, and a reference library of NAIC model laws, acts and regulations. Arkansas is an active participant in a nationwide consumer complaints data base sponsored by NAIC. At regular intervals, Arkansas forwards an electronic filing of accumulated consumer complaints to NAIC, where it is integrated into the nationwide data base.

In February of 1995, the Division embarked on a two year project to install a local area network (LAN) within the Department. The network project is proceeding according to schedule. It will connect all NAIC member insurance departments and improve the capability of the Insurance Department to regulate the Arkansas insurance industry through the greater access to financial data maintained at the NAIC offices in Kansas City, Missouri. Improved communications between the state Insurance Commissioners and their staffs will also be provided. The project completion date is estimated to be in the fourth quarter of 1996.

Surplus Line Companies

Approved, surplus lines insurance (sometimes called excess and surplus lines) is specialized property or liability coverage provided by a nonadmitted insurer in instances where it is unavailable from insurers licensed by the state. In Arkansas, a surplus lines company must meet certain financial requirements in order to be "approved" but they are not required to file rates and forms.

Risk Retention Groups

A risk retention group is a capitalized, member-owned insurance company formed under the Risk Retention Act of 1986. It is only allowed to sell casualty insurance. It must be licensed in its state of domicile and must register in other states where it intends to do business. However, the other states are limited in what types of regulation they may do.

Multiple Employer Trusts

A multiple employer trust (MET) is a benefit plan which covers the employees of two or more employers on a basis providing for a pooling of experience on factors such as morality, morbidity and expense. The trust is usually with a bank or insurer with a trustee and administrator. Group contracts are issued and administration is on a group basis usually by a third party administrator.

The Finance Division schedules and conducts financial and market conduct examinations of all Arkansas Domestic Insurance Companies. Department examiners also participate in Zone Examinations of foreign insurance companies as deemed necessary by the Commissioner.

Members of the division analyze all statutory annual financial statements of all insurance companies authorized to conduct business in the State of Arkansas. In addition, the division bears the responsibility for the review and analysis of corporate documents of those insurance companies seeking the Commissioner's approval to conduct the business of insurance in Arkansas. Corporate documents regarding mergers, acquisitions, bulk reinsurance and assumptive reinsurance agreements are reviewed and analyzed by members of the finance division staff.

This division has primary responsibility for answering inquiries regarding the application of the provisions of the Arkansas Code as it relates to insurance company investments, assets and liabilities.

The following is a breakdown of domestic insurance companies domiciled in the State of Arkansas, by type of business written as of December 31, 1995:

Life Insurance Companies	44
Property and Casualty Insurance Companies	12
Farmers Mutual Aid Associations	14
Hospital and Medical Service Corporations	1
Health Maintenance Organizations (HMO's)	9
Title Insurance Companies	2
Total	82

EXAMINATIONS

Financial and market conduct examinations are now examined under a team system with an attorney, a certified financial examiner, an examiner-in-charge and a financial analyst assigned to each examination performed by this Division. This system allows for the team members to become more knowledgeable of the workings of the companies and provides for more efficient examinations. This Division's staff of eight (8) examiners operates under the direction of William Woodall, Jr., C.F.E., Certified Financial Examiner/Chief Examiner.

During the year 1995, financial and/or market conduct examinations were conducted on or in process on the following companies:

American Pioneer Life Insurance Company	Trumann, AR
American Pioneer Property Insurance Company	Trumann, AR
1st Financial Assurance Company	Trumann, AR
Selected Funeral and Life Insurance Company	Hot Springs, AR
Guaranty National Insurance Company	Ashdown, AR
Arkansas National Life Insurance Company	Little Rock, AR

FINANCIAL ANALYSIS

This Division's staff of three financial analysts reviews each financial statement filed by each domestic insurer, as well as other documents submitted by said insurers, such as assumptive reinsurance agreements, acquisition filings, and filings relating to mergers. Their work is conducted under the supervision of Charles Thomas, Senior Insurance Examiner/Financial Analyst.

SECURITIES

The Securities Administrator/Analyst and Securities Custodian handle the administration of securities deposits maintained in trust at various approved safekeeping institutions in Pulaski County, Arkansas, by insurers authorized to transact business in the State. These deposits are maintained for the benefit and protection of policyholders in the State of Arkansas in compliance with requirements of the Arkansas Insurance Code.

The breakdown of these accounts as of June 30, 1995, was as follows:

Type of Account	Number of Deposits	Amount
Domestic Company Deposit	234	\$100,574,617
Foreign Company Securities Deposit	2,045	313,032,000
Totals	2,281	\$431,596,617

PREPAID FUNERALS

Due to the enactment of Act 852 of 1995, signed March 31, 1995, the regulatory authority pertaining to the sale of prepaid funeral benefits was transferred from the Arkansas Securities Commissioner and the Arkansas Securities Department, to the Arkansas Insurance Commissioner and the Arkansas Insurance Department, effective July 1, 1995.

Initially, all master files, documents and reports were secured from the Securities Department and are currently being safeguarded and maintained in the Finance Division. By means of Rule and Regulation No. 63 of the Arkansas Insurance Department, effective September 1, 1995, Commissioner Douglass made and promulgated reasonable policies and procedures for the administration and control of the licensee's trust fund disbursements and maintenance of the funeral homes' active and matured files. The proper Department forms were then

revised, activated and dispersed to the licensees with the public's interest and protection of the contract buyers being the primary concern.

Financial examinations of the licensed establishments (funeral homes) have been initiated and made public concerning the sale of prepaid funeral benefits contracts. The purpose of these examinations are to review, analyze and balance the prepaid trust accounts established by law; to review the company's general accounting procedures, prepaid funeral benefits contracts and to determine whether the company is in compliance with the requirements under Arkansas law. The company's closed and active files are being reviewed to ensure proper handling and disbursements of funds between parties, along with the verification of individual's licensure. Examinations conducted since the transfer in 1995, were as follows:

Westbrook Funeral Home
Brow Funeral Home
Turpin Funeral Home
Huson Funeral Home
Essex Funeral Home
Jacksonville Funeral Home
Boyd Funeral Home

The primary responsibility of the Legal Division attorneys is to serve as legal counsel for the Insurance Commissioner and Department staff. This responsibility includes giving counsel and advice, conducting legal research as to issues pending before the Commissioner or his staff as to interpretation or application of State and Federal statutes or regulations, and representing or defending the Commissioner or other staff members in lawsuits or other legal proceedings. The Division is responsible for assisting the Commissioner in drafting legislation, rules and regulations, bulletins, directives, legal opinions, and Administrative Declaratory Orders, as well as orders and notices of many kinds. The Division attorneys and investigator also investigate consumer complaints as to insurers, agents and other licensees/registrants and represent the Department in administrative proceedings and hearings as to alleged Insurance Code or regulation violations of such licensees.

The Division assists the Commissioner with his Code duties as agent for service of legal process as to foreign insurers and other corporate documents on insurance companies, Health Maintenance Organizations ("HMO's"), and other similar licensees. In this regard, the Legal Division assists the Commissioner in processing and maintaining records of corporate and holding company transactions of insurers, including insurer name changes, address changes, domestications and redomestications. Division attorneys represent the Insurance Department in Administrative Hearings pertaining to insurance company acquisitions, assumptive reinsurance agreements, and similar transactions.

Division services to the public include giving advice, counsel and information to consumers who call or write the Department for information about insurance, insurance companies, and other licensees. Division staff also aid the Commissioner in providing information and assistance, or Department certificates, records and documentation to consumers, insurers or other licensees and their representatives, and various local, state and federal governmental agencies, including other state insurance departments.

The Agent's License Division is responsible for the testing and licensing of individuals desiring to become agents, brokers, solicitors, adjusters, or consultants. The Division also oversees the registration of third party administrators, self-insured plans and multiple employer trusts. The Division issues Certification of the license status of an Arkansas licensed individual to another state, and issues Clearance Letters for Arkansas individuals who move from Arkansas to another State. In addition, the Division maintains the records of the agent's compliance with the required continuing education, which includes the maintenance of 177 approved providers, their instructors and courses. The Division is also responsible for the billing and record keeping of the agent licensing fees, which is one of the major revenue sources for the Arkansas Insurance Department. During 1995 the Division processed the following.

Agent Examinations	4,495
Resident Agent Licenses Issued	45,371
Non-Resident Agent Licenses Issued	14,238
Agent Appointments Renewed	20,000
New Agencies Licensed	720
Certification Letters	5,385
Clearance Letters	100
Appointment Cancellations	13,318
Continuing Education Certificates of Completion	9,474
Continuing Education Exemption Requests	334

Refinement of the computerization of agents records continued into 1995. The Department now has approximately 350,000 records in its data base. All transactions concerning agent and agency licenses are now processed electronically. The transactions include license issuance, license terminations, company appointments, continuing education and agent licensing fees. A future project of the Department is to permit electronic agent licensing by insurance companies.

The Life and Health Division is responsible for the general regulation of life and health insurance transacted in Arkansas. Included in this category are variable life policies and annuities, funeral insurance, credit life and disability, Medicare supplements, long term care, group and individual health, health maintenance organizations and continuing care facilities.

Additional responsibilities cover the regulation of interest sensitive contracts, charitable annuities, mortgage life insurance, accelerated benefits and fraternal insurance.

Regulation primarily consists of the review and approval or disapproval of form and rate filings. Other responsibilities include expanding insurers authority under its Certificate of Authority and insuring that insurance companies adhere to laws and regulations. Some 11,000 forms are reviewed annually. Each form must comply with all laws and must be equitable for the insured. Premium rates on all individual health policies must be submitted for approval. There must be an acceptable relationship of benefits paid to premiums charged.

The Life and Health Division functions as an advisor to the Arkansas Comprehensive Risk Pool, state employees, and school employees insurance committees.

In addition, the Division works with the public, attorneys, consumer organizations, research institutions and company representatives on insurance problems. Questions involve inquiries ranging from insurance company stability to what company issues what type policy.

The Property & Casualty Division of the Insurance Department is responsible for regulating and monitoring the activities of the property, casualty, surety and marine insurers transacting business in Arkansas. The Division staff reviews all insurance policy forms which provide insurance coverage as well as the underwriting rules used by the insurance companies to determine whether or not to accept a risk. The rates to be charged by these insurers are also filed with the Department for review. Much staff time is spent in reviewing these filings and communicating with insurance company staff concerning problems with the filings and changes in Arkansas laws and/or regulations that affect such filings. In 1995, analysts reviewed 11,154 form filings and 2,785 rate and rule filings. The division also handled 9,159 telephone calls from companies, agents and consumers.

The staff of this Division also works closely with the Consumer Services Division in addressing consumer complaints dealing with rate increases and coverage questions. All workers compensation complaints are handled by the Property & Casualty Division.

When licensed insurers are unwilling or unable to provide needed coverages, consumers can place their business with a "Surplus Line" insurer by going through a surplus lines broker. These surplus line insurers are "non-admitted" insurers which are "approved" to write coverage in Arkansas or are on a list of non-admitted insurers maintained by the National Association of Insurance Commissioners. Most of the companies on the NAIC list of "approved" surplus lines companies are alien companies, domiciled outside the United States.

Surplus Lines Brokers are required to be experienced agents with a minimum of seven years of insurance background. These brokers are the only access to the surplus lines market for consumers. In 1995 there were 48 licensed surplus lines brokers in Arkansas.

Arkansas law regarding unauthorized insurers also requires that any person or business who obtains their own insurance directly from a non-admitted company on risks located in Arkansas pay a 2% "self-procured" tax to this Department. In 1995 this Division collected \$74,129.61 in self-procured premium tax.

Arkansas is a competitive rating state with statutory guidelines mandating that the rates cannot be excessive, inadequate or unfairly discriminatory. Rate changes and supporting documentation must be filed with the Department at least twenty (20) days prior to the requested effective date. If after review, the requested rate change is found to be neither excessive, inadequate or unfairly discriminatory, it is stamped "Filed" by the Department and may be used by the insurer twenty (20) days after the "Filed" date.

WORKERS' COMPENSATION RATES

Unlike other property and casualty lines, workers' compensation insurance rates must receive prior approval from the Department before used. Advisory organizations such as the National Council on Compensation Insurance may make "advisory" rate filings and individual insurers may file to adopt and use these rates, either as filed by the advisory organization or after modification to develop company specific rates.

In July 1991, the Arkansas Insurance Department assumed responsibility for the Arkansas Assigned Risk Plan. Much of this Division's time and energy since that time has been directed toward resolving complaints and improving the responsiveness of servicing carriers to insureds and agents in Arkansas. In 1994, to be effective January 1, 1995, this Department selected servicing carriers for the first time by a competitive bid process. This process reduced the average servicing carrier allowance from 27.4% to an average of 20.29%, thus saving approximately \$8.6 million dollars.

OTHER RESPONSIBILITIES

This Division also issues and renews Certificates of Registration for purchasing groups, risk retention groups, advisory organizations and motor clubs.

Admitted insurers seeking to amend an existing Certificate of Authority to include additional lines of insurance must secure approval through this Division of the Insurance Department.

Although the Division is primarily geared toward rate and form review, much time and effort is devoted to consumer and industry assistance.

Under the provisions of Act 809 of 1979, as amended by Act 929 of 1981, the Public Employee Claims Division is the agency responsible for the investigation, determination, payment, management, and administration of the approximately 3,000 workers' compensation claims filed each year by State employees.

Where not otherwise excluded by reason of a privately written policy for their workers' compensation liability, the State of Arkansas provides workers' compensation benefits protection to the employees of state agencies, colleges and universities, vo-tech schools, and boards and commissions. Workers' compensation coverage is also provided for the emergency services volunteer workers who are accidentally injured while performing services under the call and supervision of the State of Arkansas or the Chief Executive Officers of the political subdivisions thereof.

OPERATIONS

- On December 31, 1995, Public Employee Claims Division had 1,819 open and active claims in which lost time was involved and averaged approximately 5,000 active medical only claims. The following depicts the last three calendar years experience in expenditures and claim receipt:

Claims Received

<u>Calendar Year 1993</u>	<u>Calendar Year 1994</u>	<u>Calendar Year 1995</u>
3,305	3,089	3,026

A reserve value of \$22,250,000.00 was placed on these claims representing a 20% decrease.

There has been a significant decrease in the amount of money disbursed for workers' compensation benefits. The following is calendar year figures of expenditures:

Expenditures

	<u>Calendar Year 1993</u>	<u>Calendar Year 1994</u>	<u>Calendar Year 1995</u>
State	\$10,934,989.43	\$ 9,449,412.12	\$ 9,175,234.29
School	6,895,484.77	6,123,488.14	3,287,030.96
County	248,651.08	151,046.24	150,343.43
City	<u>254,169.96</u>	<u>147,127.21</u>	<u>188,123.33</u>
TOTAL	\$18,333,295.24	\$15,871,073.71	\$12,800,732.21

- These figures indicate a 16% decrease in expenditures for state claims from January, 1993 through December 31, 1995. The division attributes this to the effect of the Medical Cost Containment Program initiated which included a more aggressive claim management policy, utilization review, hospitalization pre-certification, peer review, and bill review. Having case loads reduced due to no longer managing new school claims was a big factor, also.
- The Public Employee Claims Division staff conducted the following outside activities: 22 on site investigations; 8 risk management/informal information sharing sessions; 10 formal seminars. This is a major increase of outside activities. 1996 will see even more on site visits with the above agendas being expanded.
- Act 796 of 1993 was a major initiative to improve the workers' compensation laws. It "tightened up" some of the provisions of the law. The primary issues now seem to be accidents in course of employment and major cause of impairment. The latter is producing more depositions from treating physicians which is taking more of our legal staff's time. Other issues are just beginning to appear but not enough to identify a trend at this time.

FUNDING

The funding for the workers' compensation claims program comes from three (3) sources: (1) the premiums and experience refunds paid by State agencies; (2) general revenue fund reimbursement from the school aid funds; and (3) general revenues for payment of claims of the employees of the cities and counties still being administered by our Division. A total of \$12,809,731.71 was disbursed from the four (4) funds administered by the Division in calendar year 1995.

CLAIMS MANAGEMENT

The Division operates the State's multimillion dollar claims office with a staff of twenty-seven (27) personnel. Ten personnel are directly responsible for the investigation, determination, and management of the claims.

In addition to their claim management responsibilities, the claims managers provide technical assistance to the public employers and their employees. They hold workshops and seminars across the State as needed to help and assist the public employers in their timely reporting of job-related injuries and the employees in reporting their claims. As predicted, this activity increased the latter part of 1995 and continues to do so as of this date.

This division continues to experience improvement in our ability to administer and work the state claims as they should be worked. The division's past ability to investigate the injury and provider charges and manage the claim had severely been hindered by the crush of the work load. Alleviating this has helped the morale of our office measurably.

SPECIAL FUNDS DIVISION ISSUES

The Director, Bill Luce, met with the administrator of the special funds division of the WCC to attempt to understand some of the requests for documentation received from them on claims that had a certificate of acceptance already in the file.

The meeting did produce an understanding of why they were making requests, but no understanding of why they were asking this division to do the work instead of asking for the documents from the claimants/dependents themselves.

LEGISLATIVE ISSUES

During the 1995 session of the Arkansas Legislature, the University System Office had legislation introduced that would have given universities the option to provide their own workers' compensation coverage as a self-insured employer. The bill was never brought to committee.

GOVERNOR'S ACCOUNTING INITIATIVE

Public Employee Claims Division completed three projects for the Governor's Office through the Governor's Accounting Initiative for the auditing firm of Deloitte & Touche during 1995. The first project consisted of looking up 5,551 names in the division's ledgers and recording approximately 4,200 names and their monthly benefits on 13 column ledger sheets. The project took 318 hours. 196 of those hours were during working hours. 122 were compensatory time.

MANAGED CARE ORGANIZATIONS

Rule 33 of the Arkansas Workers' Compensation Commission called for a managed care system for the employee injured while working. Seven Managed Care Organizations were certified September 1, 1995. After an invitation to submit proposals and an evaluation process, a contract has been signed and has one more legislative committee to go to for approval.

CONCLUSION

The claims managers have begun to visit state agencies to provide on the job safety programs. The efforts of the claims managers are designed to help agencies reduce on the job accidents.

The necessity of computer support cannot be emphasized enough. Several examples are cited in this report to accentuate the fact that with this support the Division could operate much more efficiently. Additionally, there is a wealth of information that could be given to state agencies that would help them in their accident prevention programs.

The Medical Cost Containment Program is apparently working. Expenditures are significantly lower. The acclimation of having the provider bills audited is complete. However, medical cost containment is only one factor of risk management. The state agencies must still emphasize accident prevention and early return to work policies. State employees need incentive to embark upon an individual wellness campaign that would not only reduce injury and illness but increase productivity. Managers at all levels need to let their employees know they care for them and need them back at work as quickly as possible. These will help to further reduce the costs of workers' compensation in state government.

The Arkansas Risk Management Division was established by Act 272 of 1981 as amended, the same being Arkansas Code Annotated §23-61-601 et seq. and includes the Governmental Fidelity Bond Program as established by Act 728 of 1987 as amended, the same being Arkansas Code Annotated §21-2-701 et seq.

The purpose and intent of Act 272 of 1981 is to reduce the cost of insurance and surety bonding to the various state agencies and to analyze and make recommendations as to more cost effective loss control and safety programs. Also, whenever possible these services shall be extended to counties, municipalities and school districts. Some of the specific statutory directive of the risk manager are:

- Standardize specifications for insurance coverage;
- Assist and advise in procurement of insurance coverages;
- Establish a system of reporting losses, both insured and uninsured;
- Develop and promote loss control programs and encourage safety;
- Perform any other function of risk management as directed by the Insurance Commissioner;
- Develop and manage an employee bonding program for State, County, Municipal and School District employees under the direction of the Governmental Bonding Board.

In accordance with the charges as directed above, the Risk Management Division has developed and implemented:

- A fire and life safety inspection program for all state buildings including fire control equipment capabilities.
- Property valuation system (appraisals) which also includes type of construction and condition of property.
- Bid procurement system including specifications designed to entice underwriter participation yet adequately protect the State from financial ruin within the budgetary constraints inherent with State government.
- Developed master policy contract to enhance the cost effectiveness of insurance procurement.
- Developed a vehicle safety program that reduces insurance premium cost, vehicle damage cost and state employee workers' compensation cost.

6. Developed a fidelity bond self-funded program as a means of reducing cost, yet increasing coverage for all employees of the state, counties, municipalities, and school districts.

The Risk Management Division is staffed with professionals to deal with the whole spectrum of risk management and insurance. Both of these areas are highly technical and complex. This is one of the reasons Risk Management has been successful. Prior to this program insurance was purchased by people with little or no training. This resulted in duplicate coverages, inadequate coverage, or in some instances, no coverage. Values covered ranged from 50% of actual value to 200% of actual value.

SENIORS INSURANCE NETWORK
Phone: (501) 686-2940

Director	Gloria Springer
Investigator	Robin Merriweather
Public Information Officer	Stacey Looney
Secretary	LaSondra Hunt

The Seniors Insurance Network (Senior's) was designed to provide one on one *Insurance* Information Counseling and Assistance (ICA) through volunteers. Senior's is the insurance component in a network of Health Care Financing Administration (HCFA) contractors providing these services to Eligible Medicare Beneficiaries (EMB's) in Arkansas. Senior's and the Arkansas Insurance Department are considered Tier 1 participants in this network and are accessible toll-free throughout the State. HCFA contractors, Senior's and other tier 1 contractors were directed to begin joint education workshops in 1995. These contractors are The Arkansas Foundation for Medical Care (AFMC), the Peer Review Organization (PRO), Arkansas Blue Cross and Blue Shield our Medicare Carrier, and the Social Security Administration (SSA).

Senior's staff and volunteers explain Medicare benefits and how other health insurance benefits are coordinated with Medicare coverage. The division offers consumers information on life, health and specialty insurance policies, premium refunds, claims, and referrals to Medicaid and other public benefits and services. To help the public compare policies and coverage, Senior's staff develop and provide tools, resources, and referrals, provide detailed information on the ten standardized MedSup plans, guides to purchasing LTC insurance, and train Certified Volunteer Insurance Counselors (CVIC). Other activities performed by the division include attending local community functions, supplying program information to the public, other government agencies, and interested organizations.

JANUARY

- HCFA Conference on coordinating beneficiary outreach activities between Tier 1 contractors within the state held in Dallas, Texas, on January 10.
- Business reply cards used in volunteer needs assessment surveys.
- Central Arkansas malls agreed to include our program information in their bulletins.

FEBRUARY

- Volunteer surveys were received, reviewed and answered.
- Volunteer counseling supplies were delivered.

MARCH

- Public Service Announcement (PSA) produced.
- Personal Benefits Plan: Senior's was informed of a possibly fraudulent business reply card being mailed to senior Arkansans.

- Staff supplied volunteers and consumers with guidelines for responding to the Personal Benefits Plan reply card.

SUMMARY

HCFA coordinated joint workshops with all Tier 1 contractors. Arkansas got its first Latino Newspaper and Senior's had an ad in its second edition. The editor, Mr. Rudy Lopez, extended an invitation to the Director to participate in planning outreach activities with the Latino community group, LULAC. Mr. Lopez offered his assistance in translating program materials

HCFA's Tier 1 contractors joint workshops replaced Insurance Counselor training sessions in 1995. Volunteer activity was purposely curtailed in order to conduct program evaluations and realign program functions and staff. During the first year of operations, Senior's trained at Area Agency on Aging (AAA) and specifically the Case Managers or Counselors. AAA's and their Case Managers provided initial insurance counseling, complaint screening and referrals to Senior's. During the second year the staff primarily provided program services along with AAA's volunteers. This process enabled the AAA volunteers who work closely with Senior's and the staff to give pertinent feedback during the evaluation phase.

The staff is currently revising the following publications: the Counselor's Handbook; Medicare Supplement Directory; Long Term Care Guide; and other dated material. Using the information gathered over the first two years, the staff is developing evaluating and reporting tools. These tools include the Counseling Report Forms, a program poster and a program brochure, as well as creating a library of materials for use in lecture series and as updates and Newsletter articles. These materials are slated for distribution in March, 1996. Counselor Training and referrals will be reinstated in 1996.

The Workers' Compensation Fraud Investigation Unit began operation in October, 1993. The Unit is mandated to enforce the fraud provisions of the workers' compensation law by investigating and criminally prosecuting persons or entities who abuse the workers' compensation system by making false or misleading statements. The Unit carries out it's mandate by receiving referrals from various sources, including insurance companies, employers, agents, employees and interested citizens. It then conducts investigations to determine whether there have been criminal violation of the law. Investigations that result in a finding of a criminal violation are referred to the appropriate elected prosecuting attorney.

The Unit is authorized to be staffed by a director, assistant director, an attorney supervisor, two staff attorneys, a chief investigator, four staff investigators and two secretaries. The director has subpoena power and may administer oaths and compel the production of documents. The Unit's attorneys are authorized to be appointed special assistant prosecuting attorneys.

In 1995, the Unit processed 278 referrals, opened 116 investigations and referred 12 cases for prosecution. The Unit successfully prosecuted 17 cases (including cases referred for prosecution in previous calendar years), resulting in \$67,830.50 in fines, \$116,000.00 in restitution and sentences of up to 5 years probation being imposed. Since beginning operations, the Unit has processed 718 referrals, opened 331 investigations and referred 42 cases for prosecution.
