In January of each year, the division mails a premium tax package to 2,349 licensed insurers. The package contains all premium tax forms necessary for the filing of annual and quarterly tax payments. Annual statements along with the tax payments are due by March 1 of each year. Quarterly tax payments are due by May 15, August 14, and November 14 of each year. The total taxes and fees collected in 1996 amounted to approximately \$108,753,747.29 and were disbursed as follows:

- \$65,253,683.70 in premium taxes paid by all licensed insurers and deposited into the General Revenue Fund (AGA).
- \$8,564,372.73 collected from licensed property and casualty insurers for the Firemen's Pension Fund (SLM) and \$9,493,290.26 collected for the Police Officer's Pension Fund (SLP). Property and casualty insurers writing fire or auto insurance must complete forms for firemen and/or police pensions. The forms are audited while working the annual statements. The proper tax rate is then applied to the allocated firemen or police pension funds. The data from the forms are keyed into the Department of Computer Services computer system for determining the proper premiums per location (372

insurers submit information on fire pension and 284 insurers submit information for police pension). After the reports are verified, distribution is made according to the total taxes collected for the firemen and police pension funds for the purpose of firemen and police officers' retirement benefits.

- \$4,566,696.75 Workers Compensation Commission Fund (TJW) and \$4,348,550.32 Workers Compensation Commission Death and Permanent Total Disability Fund (TDP). This division is responsible for collecting the Workers' Compensation Commission taxes. These taxes must be submitted by March 1 of each year. The tax is collected on written manual premiums rates. These rates can range from 0% up to 3% depending on a formula determined by or approved by the Workers' Compensation Commission. The division deposits all three funds directly and the Workers' Compensation Commission has administrative authority.
- \$2,211,124.30 deposited into Constitutional and Fiscal Offices (HSC). Collection based on fees and for the operation of fund.
- \$4,542,504.99 Fire Protection Revolving Fund (ARH-01) collected from licensed

property and casualty insurers on first party premiums. The purpose is to fund the rural fire departments in order to purchase equipment, construct buildings and educate firemen. The Department of Finance and Administration disburses the funds after this division makes the deposit.

The 2,349 annual statements are audited by the Accounting Division to verify premiums written and taxes and fees collected. If any discrepancies appear in the statement data compared to taxes paid, a letter is prepared requesting clarification or correction.

The division maintains oversight of all budgetary matters of the Insurance Department, preparing fiscal year budgets, biennium budgets, payment of all invoices, purchasing of all furniture, equipment, and necessary supplies.

All fees, taxes, and other funds payable to the Arkansas Insurance Department must be accounted for by this division. All checks and payments are posted in ledgers for audit verification before deposited into the State Treasury.

Consumer Services Division

The Consumer Services Division continued in 1996 to provide valuable information and investigation services to insurance consumers in Arkansas. This division is charged with the responsibility of assisting citizens with resolving insurance problems, monitoring complaints and inquiries for insurance code violations, and identifying early indicators of solvency problems and trends that reflect unfair or deceptive practices by licensees. The division also attempts to educate consumers as to the nature of insurance products, the importance of those products, and the most effective way to purchase insurance.

The division received 3,552 written complaints, more specifically categorized as follows: 1,813 life and health insurance complaints and 1,739 automobile and homeowners insurance complaints. The division assisted 343 walk-in citizens and received 31,851 telephone inquiries during the year 1996. The division closed 3,129 written complaint files and was instrumental in recovering \$3,534,708 for consumers in the State of Arkansas.

The assigned tasks of the insurance investigators require them to (1) receive and review insurance complaints in the form of written complaints, telephone calls, or personal visits, (2) contact

the involved companies and consumers for necessary information and action, (3) use their knowledge and expertise in reviewing files for trends of possible adverse actions by insurance companies and related entities, and (4) present information to the public in a clear and accurate manner, in both written and verbal communications.

The division continues to educate consumers through speaking engagements and outreach programs throughout the State. The division participated in 20 workshops presented by the Governor's Dislocated Workers Task Force, which provides information and assistance to workers facing job loss; and 2 disaster relief programs for tornado victims.

Data Processing Division

Phone: (501) 371-2657

Data Center Manager..... Don Howard
Applications/System Analyst..... Britt P. Simmons
Systems Coordination Analyst..... Donald D. Cordes

The Data Processing Division was created in June of 1986 to implement a plan to automate the Insurance Department. In August of 1989, the Department took delivery of a Data General KV15000 Mod 8 minicomputer.

The division supports more than 135 users through the use of both terminals and personal computers. All data processing services are available to users twenty-four (24) hours a day, seven days a week. In addition to providing access to local facilities, there is access to national organizations through the Department's leased telephone circuits and internet connections. Both data and mail messages may be exchanged using these accesses. One such organization is the National Association of Insurance Commissioners (NAIC), based in Kansas City, Kansas. Through this group, the Department can access information about insurance companies and agents all over the United States, Guam, Puerto Rico and American Samoa. It also functions as a data exchange site for other state insurance departments, thereby enabling the Department access to information that will enhance regulation of insurance business in Arkansas.

With the addition of a Local Area Network (LAN), we have begun the process of updating all departments with the installation of personal computers connected to an internal server. This will allow data, messages and other records to be maintained in one central location for easy access by all divisions. Plans are being made to install equipment that will drastically decrease

the time and resources necessary to maintain both current and historical records. Paper records will be reduced to a minimum and emphasis will be on automation. This transition, which began in 1995, is dramatically affecting the way the Department does business. Services to our clients are increasing and costs are moderating.

This division maintains, on computer, master files of companies currently authorized to participate in insurance related activities in the State, all licensed agents, all licensed agencies, Arkansas insurance statutes, and a reference library of NAIC model laws, acts and regulations. We are an active participant in a nationwide consumer complaints data base through the NAIC. We forward complaints to NAIC so that complaints may be integrated into the national database.

Plans are in place for the automation effort to be completed by mid-1997 and work will then begin on the conversion of historical records to magnetic media. 1998 should be another challenging year but results will show in the effectiveness of delivery of services to the people of the State of Arkansas.

The Finance Division schedules and conducts financial and market conduct examinations of all Arkansas domestic insurance companies. Department examiners also participate in zone examinations of foreign insurance companies as deemed necessary by the Commissioner.

Members of the division analyze statutory annual financial statements of all insurance companies domiciled in the State of Arkansas as well as selected annual statements of foreign insurance companies authorized to transact business in the State of Arkansas. In addition, the division bears the responsibility for the review and analysis of corporate documents of those insurance companies seeking the Commissioner's approval to conduct the business of insurance in Arkansas. Corporate documents regarding mergers, acquisitions, bulk reinsurance and assumptive reinsurance agreements are reviewed and analyzed by members of the Finance Division staff.

This division has primary responsibility for answering inquiries regarding the application of the provisions of the Arkansas code as it relates to insurance company investments, assets and liabilities.

The following is a breakdown of domestic insurance companies domiciled in the State of Arkansas by type of business written as of December 31, 1996:

Life and Health Companies	47
Property and Casualty Companies	12
Farmers Mutual Aid Associations	14
Hospital and Medical Service Corporations	1
Health Maintenance Organizations (HMO's)	7
Title Insurance Companies	2
Total	83

EXAMINATIONS

Financial and market conduct examinations continue to be conducted under a team system with an attorney, a certified financial examiner, an examiner-in-charge and a financial analyst assigned to each examination performed. This system allows for the team members to become more knowledgeable of the workings of the companies and provides for more efficient examinations. This division's staff of eight (8) examiners operates under the direction of William Woodall, Jr., C.F.E., Certified Financial Examiner/Chief Examiner.

During the year 1996, financial and/or market conduct examinations were completed or in process on the following companies:

FINANCIAL ANALYSIS

This staff of three (3) analysts reviews each financial statement filed by each domestic insurer, as well as other documents submitted by insurers, such as assumptive reinsurance agreements, acquisition filings, and filings relating to mergers. Their work is conducted under the supervision of Charles Thomas, Senior Insurance Examiner/Financial Analyst.

SECURITIES

The Securities Administrator/Analyst and Securities Custodian handle the administration of securities deposits maintained in trust at various approved safekeeping institutions in Pulaski County, Arkansas, by insurers authorized to transact business in the State. These deposits are maintained for the benefit and protection of policyholders in the State of Arkansas in compliance with requirements of the Arkansas Insurance Code.

The breakdown of these accounts as of June 30, 1996, was as follows:

Type of Account Amount	Number of Deposits	
Domestic Company Deposit	182	\$ 53,196,314
Foreign Company Securities Deposit	1,834	320,854,000
Totals	2,016	\$374,050,314

PREPAID FUNERALS

The primary responsibility of this section of the division is to ensure that funeral home licensees are and remain in compliance with the provisions set forth in Act 852 of 1995 ("Act"). The responsibilities would include the following: to review the licensees' active and matured prepaid funeral benefit contracts to ensure compliance with the Department's Rule & Regulation 63; to review and analyze the filed annual reports for accuracy and authenticity; and to respond to both consumers and contract purchaser's inquiries in regard to the prepaid funeral benefit contracts.

Permits: 176 funeral home establishments were issued prepaid funeral benefits permits on or before June 1, 1996. These permits were issued only after a review of their applications, accompanying net worth certifications and their outstanding and unfulfilled sales contracts.

Financial Examinations: During the calendar year 1996, eighteen (18) financial examinations were completed in different geographical areas of the State. The scheduling and priority of these examinations were based on documents and reports filed with the Department. An analysis of the completed examinations revealed that ten (10) licensees experienced varying degrees of shortages. These shortages are being monitored to ensure that licensees are performing the necessary requirements to maintain a balanced trust account. In a few cases, licensees were required to execute "agreements" in which certain conditions must be met to prevent the Department from exercising its regulatory authority to cancel and/or revoke their permits for failure to comply with the provisions of Act 852 of 1995.

During the year 1996, financial examinations were completed on the following licensees:

Acklin Funeral Home, Inc. - Conway, AR
Acklin Funeral Home, Inc. - Little Rock, AR
Andrews Funeral Home - El Dorado, AR
Batesville Funeral Home - Batesville, AR
Benton Funeral Home, Inc. - Fordyce, AR
Brandon's Mortuary - Malvern, AR
Cromwell Funeral Home, Inc. - Hamburg, AR
Fowler Funeral Home, Inc. - Brinkley, AR
Hicks Funeral Home, Inc. - Hope, AR
Hubble Brothers, Inc. - N. Little Rock, AR
Lemley Funeral Services, Inc. - Atkins, AR
P.K. Miller Mortuary - Pine Bluff, AR
Miller-Elston Mortuary, Inc. - Little Rock, AR
Ruffin & Jarrett Funeral Home - Little Rock, AR
Stephens Funeral Home - West Helena, AR
W.L. Westbrook Funeral Home, Inc. - Beebe, AR
Wilson-Stephens Funeral Home - England, AR

Annual Reports: All annual reports were filed with this Department in a timely manner on or before the required deadline of March 15, 1996, with a few exceptions. These exceptions, absent of good cause shown for their delinquent filings, were assessed an administrative penalty. The reports were reviewed and analyzed for accuracy and authenticity. Annual reports indicated that the industry has generated \$270,000,000 in outstanding and unfulfilled contracts as of December 31, 1995.

ADMISSIONS

This section analyses corporate and financial documents of insurance companies seeking the Commissioner's approval to conduct the business of insurance in Arkansas, as well as the issuance of certificates of authority and surplus lines approvals.

Human Resources Division

Phone: (501) 371-2818

Manager	Andrea May
Payroll Officer	Shirley Pegg
Secretary	Annette Craig
Dept. Receptionist/Switchboard . .	Adrienne Keith

Due to the increased size of the Department, the Human Resources Division was created in June, 1996. The Division is governed by the Arkansas Human Resources Management System of the Office of Personnel Management.

The responsibilities of the Division include: recruiting, reviewing applications to verify applicant's qualifications and conducting pre-employment interviews; completing payroll; providing information regarding employee insurance enrolling employees in various insurance plans, maintaining Department leave records and personnel records; reviewing and interpreting personnel laws, guidelines and procedures for Department personnel; along with many other related duties.

This Division is also responsible for ensuring that federal laws are adhered to by the Department, such as the Americans with Disabilities Act and the Fair Labor Standards Act.

During 1996, twenty-five (25) full time and extra help positions were filled, thirteen (13) of which were in-house promotions. Correspondingly, the Department experienced twenty-three (23) separations [fifteen (15) full time and eight (8) extra help positions] which included voluntary and involuntary terminations, retirements and transfers.

The primary responsibility of the Legal Division attorneys is to serve as legal counsel for the Insurance Commissioner and Department staff. This responsibility includes: (1) giving counsel and advice and conducting legal research regarding issues pending before the Commissioner or his staff relating to interpretation or application of state and federal statutes or regulations, and (2) representing or defending the Commissioner or other staff members in lawsuits or other legal proceedings. The division is responsible for assisting the Commissioner in drafting legislation, rules and regulations, bulletins, directives, legal opinions, and administrative declaratory orders, as well as many types of orders and notices. The division attorneys and investigator also investigate consumer complaints against insurers, agents and other licensees/registrants and represent the Department in administrative proceedings and hearings regarding alleged insurance code or regulation violations of such licensees.

The division assists the Commissioner with his code duties as agent for service of legal process for foreign insurers and other corporate documents on insurance companies, health maintenance organizations ("HMO's"), and other similar licensees after assuring that all are in compliance with Arkansas law. In this regard, the division assists the Commissioner in

processing and maintaining records of corporate and holding company transactions, including insurer name changes, address changes, domestications and redomestications. Division attorneys represent the Department in administrative hearings pertaining to insurance company acquisitions, assumptive reinsurance agreements, and similar transactions, as required.

Division services to the public include giving advice, counsel and information to consumers who call or write the Department for information about insurance, insurance companies, and other licensees. Division staff also aid the Commissioner in providing information and assistance, or Department certificates, records and documentation to consumers, insurers or other licensees and their representatives, and various local, state and federal governmental agencies, including other state insurance departments.

The Agent's License Division is responsible for the testing and licensing of individuals desiring to become agents, brokers, solicitors, adjusters, or consultants, as well as corporations that wish to be licensed as agencies. The division also oversees the registration of third party administrators, self-insured plans and multiple employer trusts. The division issues Certification of the license status of an Arkansas licensed individual to another state, and issues Clearance Letters for Arkansas individuals who move from Arkansas to another state. In addition, the division maintains the records of the agent's compliance with required continuing education, which includes the maintenance of 248 approved providers, their instructors and courses. The division is also responsible for the billing and record keeping of the agent licensing fees, which is one of the major revenue sources for the Department.

Computerization of the division records was completed in 1994 with 350,000 records in its data base. The transactions include license issuance, license terminations, company appointments, continuing education and agent licensing fees. In addition, the division is in the process of reviewing computer systems to update and upgrade to allow electronic licensing and more efficient processing of the records.

During 1996 the division received 58,329 telephone calls, helped 5,062 walk-in customers and processed the following.

This division is charged with the responsibility for the general regulation of life and health insurance transacted in the State of Arkansas.

The divisions primary regulatory function consists of reviewing forms, rates and advertising for approval or disapproval. Over 10,000 forms were processed in 1996. Content, format and readability is prescribed by statute and regulation. Each contract must meet these requirements and must be equitable to the insured. Premium rates on all individual policies must be submitted for approval. These must be checked to determine that there is an acceptable relationship of benefits paid to premiums charged.

Types of policies reviewed include variable life policies and annuities, equity indexed annuities, guaranteed interest contracts, funeral insurance, credit life and disability, interest sensitive contracts, individual and group health, disability income, long term care, medicare supplement, supplemental benefits and health maintenance organizations.

Although not insurance, the financial regulation of life and continuing care residences is under the jurisdiction of this division.

During 1996 considerable time was spent revising procedures due to changes in the federal statutes for medicare supplements. In the last three months major changes have been made in the laws governing health insurance. New Arkansas

legislation had to be prepared to bring the State into compliance with federal statutes.

In addition, the division works with the public, attorneys, consumer organizations, research institutions and company representatives on various issues arising under the Division's responsibilities.

The Property & Casualty Division of the Insurance Department is responsible for regulating and monitoring the activities of the property, casualty, surety and marine insurers transacting business in Arkansas. The division staff reviews all insurance policy forms which provide insurance coverage as well as the underwriting rules used by the insurance companies to determine whether or not to accept a risk. The rates to be charged by these insurers are also filed with the Department for review. Much staff time is spent in reviewing these filings and communicating with insurance company staff concerning problems with the filings and changes in Arkansas laws and/or regulations that affect such filings. In 1996, analysts reviewed 14,659 form filings and 4,149 rate and rule filings. The division also handled 9,409 telephone calls from companies, agents and consumers.

The staff of this division also works closely with the Consumer Services Division in addressing consumer complaints dealing with rate increases and coverage questions. All workers' compensation complaints are handled by the division.

When licensed insurers are unwilling or unable to provide needed coverages, consumers can place their business with a "surplus line" insurer by going through a surplus lines broker. These surplus line insurers are "non-admitted" insurers

which are "approved" to write coverage in Arkansas or are on a list of non-admitted insurers maintained by the National Association of Insurance Commissioners (NAIC). Most of the companies on the NAIC list of "approved" surplus lines companies are alien companies, domiciled outside the United States.

Surplus lines brokers are required to be experienced agents with a minimum of seven years of insurance background. These brokers are the only access to the surplus lines market for consumers. In 1996 there were 48 licensed surplus lines brokers in Arkansas.

Arkansas law regarding unauthorized insurers also requires that any person or business who obtains their own insurance directly from a non-admitted company on risks located in Arkansas pay a 2% "self-procured" tax to this Department. In 1996 this division collected \$1,153,561.17 in self-procured premium tax.

Arkansas is a competitive rating state with statutory guidelines mandating that the rates cannot be excessive, inadequate or unfairly discriminatory. Rate changes and supporting documentation must be filed with the Department at least twenty (20) days prior to the requested effective date. If after review, the requested rate change is found to be neither excessive, inadequate or unfairly discriminatory, it is stamped

"Filed" by the Department and may be used by the insurer twenty (20) days after the "Filed" date.

WORKERS' COMPENSATION RATES

Unlike other property and casualty lines, workers' compensation insurance rates must receive prior approval from the Department before used. Advisory organizations such as the National Council on Compensation Insurance (NCCI) may make "advisory" loss cost filings and individual insurers may file to adopt these loss costs and modify them to develop company specific rates.

In July 1991, the Arkansas Insurance Department assumed responsibility for the Arkansas Assigned Risk Plan. Since the Plan's inception, the Plan Administrator, NCCI, has worked with this Department to improve both the quantity and quality of services it provides to the Plan members. The NCCI and the Department have made a great deal of progress in improving the responsiveness of servicing carriers to insureds and agents. In 1994, to be effective January 1, 1995, this Department selected servicing carriers for the first time by a competitive bid process. This process reduced the average servicing carrier allowance from 27.4% to an average of 20.29%, thus saving approximately \$8.6 million dollars.

OTHER RESPONSIBILITIES

This division also issues and renews Certificates of Registration for purchasing groups, risk retention groups, advisory organizations and motor clubs.

Admitted insurers seeking to amend an existing Certificate of Authority to include additional lines of insurance must secure approval through this division of the Insurance Department.

Although the division is primarily geared toward rate and form review, much time and effort is devoted to consumer and industry assistance.

Under the provisions of Act 809 of 1979, as amended by Act 929 of 1981, the Public Employee Claims Division is responsible for the investigation, determination, payment, management, and administration of the approximately 2,900 workers' compensation claims filed each year by state employees.

Where not otherwise excluded by reason of a privately written policy for workers' compensation liability, the State of Arkansas provides workers' compensation benefits protection to the employees of state agencies, colleges and universities, vo-tech schools, and boards and commissions. Workers' compensation coverage is also provided for the emergency

services volunteer workers who are accidentally injured while performing services under the call and supervision of the State of Arkansas or the chief executive officers of the political subdivisions thereof.

OPERATIONS

- On December 31, 1996, Public Employee Claims Division had 1,609 open and active claims in which lost time was involved. We average approximately 200 active medical only claims. The following depicts the last three calendar years experience in expenditures and claim receipt:

Claims Received

Calendar Year 1994

3,089

Calendar Year 1995

3,026

Calendar Year 1996

A reserve value of \$19,750,000.00 was placed on these claims representing a 11% decrease.

There has been a significant decrease in the amount of money disbursed for workers' compensation benefits. The following is calendar year figures of expenditures and the division's claims experience history.

		- 29.0% From 1993				

- These figures depict a 12% drop in expenditures for state claims from 1995. We attribute this reduction to the decision to initiate the Medical Cost Containment Program, which includes a more aggressive claim management policy, utilization review, hospitalization pre-certification, peer review, and bill review. Another significant factor was a reduction in case load resulting from removal of new school claims from the Division's responsibility.

- In 1996 the Public Employee Claims Division conducted the following outside activities: 34 on site investigations; 6 risk management/informal information sharing sessions; 11 formal seminars; 12 full hearings; 10 management visits. This is a major increase of outside activities. We hope to increase this activity in 1997.
- Act 796 of 1993 was a major initiative to improve the workers' compensation laws. It "tightened up" some of the provisions of the law. The primary issues continue to be objective findings of an injury, accidents in the course of employment, time and place specific incidents, and major cause of impairment. These items are resulting in more depositions which is taking more of our legal staff's time.

FUNDING

The funding for the workers' compensation claims program comes from three (3) sources: (1) the premiums and experience refunds paid by state agencies; (2) general revenue fund reimbursement from the school aid funds; and (3) general revenues for payment of claims of the employees of the cities and counties still being administered by our division. A total of \$10,105,825 was disbursed from the four (4) funds administered by the division in calendar year 1996.

CLAIMS MANAGEMENT

The division operates the State's multimillion dollar claims office with a staff of twenty-six (26) personnel. Ten (10) personnel are directly responsible for the investigation, determination, and management of the claims. Support staff make up the remainder of personnel.

In addition to their claim management responsibilities, the claims managers provide technical assistance to public employers and their

employees. They hold workshops and seminars across the State as needed to help and assist public employers in their timely reporting of job-related injuries and the employees in reporting their claims. As predicted, this activity increased the latter part of 1996 and continues to do so as of this date.

As our case loads are getting into a manageable number, we continue to experience improvement in our ability to administer state claims. We can work the state claims as they should be worked. Our past ability to investigate the injury and provider charges and manage the claim had been severely hindered because of the Division's large work load. Alleviating this has helped the morale of our office measurably.

MANAGED CARE ORGANIZATIONS

Rule 33 of the Arkansas Workers' Compensation Commission requires a managed care system for employees suffering from a compensable injury. This Rule was finalized effective January 20, 1997. We intentionally delayed implementation of a managed care program to ensure development of a program in full compliance with the Rule.

CONCLUSION

The necessity of computer support cannot be emphasized enough. Several examples are cited in this report to accentuate the fact that with this support the division could operate much more efficiently. Additionally, there is a wealth of information that could be given to state agencies that would help them in their accident prevention programs.

The Medical Cost Containment Program is in place. Expenditures are significantly lower. The acclimation of having the provider bills audited is complete. With employee notification, we should experience more savings as the agencies will

direct injured workers to the PPO of our MCO and realize savings from the discount we will get from that organization.

However, medical cost containment is only one factor of risk management. The state agencies must still emphasize accident prevention and early return to work policies. State employees need incentive to embark upon an individual wellness campaign that will not only reduce injury and illness but increase productivity. Managers at all levels need to let their employees know they care for them and need them back at work as quickly as possible. These efforts will help to further reduce the costs of workers' compensation in state government.

The Arkansas Risk Management Division was established by Act 272 of 1981 as amended, codified as Arkansas Code Annotated § 23-61-601 et seq. and includes the Governmental Fidelity Bond Program as established by Act 728 of 1987 as amended, codified as Arkansas Code Annotated § 21-2-701 et seq.

The purpose and intent of Act 272 of 1981 is to reduce the cost of insurance and surety bonding to state agencies and to analyze and make recommendations as to more cost effective loss control and safety programs. Also, whenever possible, these services are extended to counties, municipalities and school districts. Some of the specific statutory directives for the risk manager are:

- Standardize and determine specifications for insurance coverage;
- Assist and advise in procurement of insurance coverages;
- Establish a system of reporting losses, both insured and uninsured;
- Develop and promote loss control programs and encourage safety;
- Perform any other function of risk management as directed by the Insurance Commissioner;
- Develop and manage an employee bonding program for state, county, municipal and school district employees under the direction of the Governmental Bonding Board.

In accordance with the charges listed above, the Risk Management Division has developed and implemented:

- A fire and life safety inspection program for all state buildings, including fire control equipment capabilities.
- Property valuation system (appraisals) which considers type of construction and condition of property.
- Bid procurement system, including specifications designed to entice underwriter participation while adequately protecting the State from financial ruin within the budgetary constraints of state government.
- Master policy contract to enhance the cost effectiveness of insurance procurement.
- Vehicle safety program that reduces insurance premium cost, vehicle damage cost and state employee workers' compensation cost.
- Fidelity bond self-funded program as a means of reducing cost, yet increasing coverage for all employees of the state, counties, municipalities, and school districts.

The division is staffed with professionals to deal with the whole spectrum of risk management and insurance. Both of these areas are highly technical and complex. This is one of the reasons the division has been successful. Prior to this program, insurance was purchased by people with little or no training. This resulted in duplicate coverages, inadequate coverage, or in some instances, no coverage. Values covered ranged from 50% of actual value to 200% of actual value.

The Seniors Insurance Network (SIN), which is fully funded by a federal grant, is designed to provide one on one insurance counseling and assistance through volunteers. SIN is the insurance component in a network of Health Care Financing Administration (HCFA) contractors providing these services to eligible medicare beneficiaries in Arkansas. Division staff and volunteers explain Medicare benefits and how other health insurance benefits are coordinated with Medicare coverage. The division offers consumers information on life, health and specialty insurance policies, premium refunds, claims, and referrals to Medicaid and other public benefits and services. To help the public compare policies and coverage, the Division develops and provides tools, resources, and referrals, provides detailed information on the ten standardized MedSup plans, along with guides to purchasing long term care insurance, and trains certified volunteer insurance counselors. Other activities performed by the division include attending local community functions, and supplying program information to the public, other government agencies, and interested organizations.

Our staff is in the process of revising certain dated materials such as the Counselor's Handbook; the Medicare Supplement Directory; and the Long Term Care Guidebook. We will begin volunteer Counseling Training sessions in 1997, as well as retraining our current volunteers with the updated materials.

Workers Compensation Fraud Investigation Unit

The Workers' Compensation Fraud Investigation Unit began operation in October, 1993. The Unit is mandated to enforce the fraud provisions of the workers' compensation law by investigating and criminally prosecuting persons or entities who abuse the workers' compensation system by making false or misleading statements. The Unit receives referrals from various sources, including insurance companies, employers, agents, employees and interested citizens. It then conducts investigations to determine whether there have been criminal violations of the law. Investigations that result in a finding of a criminal violation are referred to the appropriate prosecuting attorney.

The Unit is authorized to be staffed by a director, an attorney supervisor, two staff attorneys, a chief investigator, four staff investigators, a management project analyst and two legal secretaries. The director has subpoena power and may administer oaths and compel the production of documents. The unit's attorneys are authorized to be appointed special assistant prosecuting attorneys.

In 1996, the unit processed 225 referrals, opened 85 investigations and referred 35 cases for prosecution. The Unit successfully prosecuted 15 cases (including cases referred for prosecution

in previous calendar years), resulting in \$12,309.00 in fines, \$22,245.57 in restitution and sentences of up to 4 years, 8 months imprisonment being imposed.

Since beginning operations in 1993, the Unit has processed 943 referrals and opened 411 investigations. A total of 74 cases have been referred for prosecution. Of these 74 cases, the Unit successfully closed 38 prosecutions with a total of \$311,586.28 in fines, costs and restitutions; lost 2 prosecutions; and has 34 cases still pending.

APPROVED, SURPLUS LINES INSURANCE (SOMETIMES CALLED EXCESS AND SURPLUS LINES) IS SPECIALIZED PROPERTY OR LIABILITY COVERAGE PROVIDED BY A NONADMITTED INSURER IN INSTANCES WHERE IT IS UNAVAILABLE FROM INSURERS LICENSED BY THE STATE. IN ARKANSAS, A SURPLUS LINES COMPANY MUST MEET CERTAIN FINANCIAL REQUIREMENTS IN ORDER TO BE "APPROVED" BUT THEY ARE NOT REQUIRED TO FILE RATES AND FORMS.
